Index to Volume 2

ABEL, M. S., 553
Acceleration, negative, 133
Acceleration and swing sickness, 580
Achilles tendon reflex and fatigue, 148
Acid-base balance and altitude, 381
Acid secretion, 571
ADLER, H. F., 37
Adrenal cortex and high altitude, 437
Adrenal cortical hormones and insulin therapy, 477
Adrenergic blocking agents and sweating in man, 512
Age
  and heart rate, 181
  and physical fitness, 488
  and visual adaptation, 407
AHOKAS, ANN J., 553, 619
Air
  dead space and expiration, 110
  inspired, 175
  residual, 240
Allergy and cold sensitivity, 425
Altitude
  and acid-base balance, 381
  blood at high, 431
  and decompression, 37
  17-ketosteroids and high, 437
  and respiration, 363
  and respiratory gas flow, 300
ALTSCHULE, M.D., H. GRUNEBAUM AND ELAINE PROMISEL. Significance of changes in extracellular fluid volume during insulin therapy for mental disease, 477
Alveolar air and respiration, 110
Alveolar gases and decompression, 37
Aminophylline as respiratory stimulant, 16
Anastomosis, phrenico-vagal, 627
Appetite and gusto-olfactory thresholds, 217
Arginase activity of blood, 343
Ascorbic acid and hypoxia, 388

BADER, M. E. AND J. MEAD. Individual differences in vascular responses and their relationship to cold tolerance, 608
BAHNSON, E. R., S. M. HORVATH AND J. H. COMROE, JR. Effects of active and 'passive' limb movements upon respiration and O_2 consumption in man, 169
BAL, MARY E. R., 563
BARGER, A. C., W. F. GREENWOOD, J. R. DIPALMA, J. STOKES, III AND L. H. SMITH. Venous pressure and cutaneous reactive hyperemia in exhausting exercise and certain other circulatory stresses, 81
BAZETT, H. C., 453
BECK, ELIZABETH I., 343
Bed rest and work performance, 223
BEHNKE, A. R., 633
BEMBOWER, W. C., 300
BERKSON, J., F. R. KEATING, JR., M. H. POWER AND W. M. MCCONAHEY. Determination of renal clearance of radioiodine, 522.
BIBILE, S. W., 488
Bicycle ergometer
  and mechanical efficiency, 563
  and work capacity, 393
Bimanual exercise and work capacity, 446
BIRREN, J. E. AND N. W. SHOCK. Age changes in rate and level of visual dark adaptation, 407
Blood
  arterial and oxygen saturation, 307
  carbon dioxide content of venous, 373
  cerebral circulation, 317
  enzyme studies, 192
  enzymes, arginase activity, 343
  and folic acid, 327
  hemoglobin, 274
  and high altitude, 431
  limb volume, 261
  pulmonary capillary pressure, 24
  rectal temperatures, 97
  venous pressure, 81
Blood changes and hyperventilation, 544, 549
Blood flow
  in vasodilated finger, 680
  and low temperatures, 61
  and negative acceleration, 133
Blood pressure
  and fitness, 278
  and hot and cold meals, 208
  pulmonary circulation, 30
Blood sugar
  and hot and cold meals, 208
  and postprandial syndrome, 469

Body build and exercise, 155
Body changes and insulin therapy, 477
Body fat and weight, measurement, 633
Body measurements and leg strength, 197
BONMARITO, C. L., 97
BOUTWELL, J. H., C. J. FARMER AND A. C. IVY. Studies on acid-base balance before and during repeated exposure to altitude, or to hypoxia and hyperventilation, 381
BOUTWELL, J. H., J. H. CILLEY, L. R. KRASNO, A. C. IVY AND C. J. FARMER. Effect of repeated exposure of human subjects to hypoxia on glucose tolerance, excretion of ascorbic acid, and phenylalanine tolerance, 388
Brain (*see also* cerebral cortex)
  cerebral circulation, 317
Brain changes and hyperventilation, 549
Breathing, mechanics of, 592
BROWN, E. B., JR. Changes in brain pH response to CO_2 after prolonged hypoxic hyperventilation, 549
BROWN, E. B., JR., A. HEMINGWAY AND M. B. VISSCHER. Arterial blood pH and pCO_2 changes in response to CO_2 inhalation after 24 hours of passive hyperventilation, 544
BROWN, G. E., JR., E. H. WOOD AND E. H. LAMBERT. Effects of tetra-ethyl-ammonium chloride on the cardiovascular reactions in man to changes in posture and exposure to centrifugal force, 117
BROŽEK, J., 223
BROŽEK, J. Quantitative criteria of oculomotor performance and fatigue, 247
BROŽEK, J., A. HENSCHEL AND A. KEYS. Effect of submersion in water on volume of residual air in man, 240
BURRILL, MARIE W. AND A. C. IVY. Excretion of neutral 17-ketosteroids in human subjects repeatedly exposed to hypoxia under conditions of simulated high altitude, 437

CAFFEINE as respiratory stimulant, 16
Carbon dioxide
  and alveolar air, 110
  and brain changes, 549
  equilibration, 453
  and hyperventilation, 544
  in mouth, 175
  and respiration, 16
  and venous blood, 373
Cardiac output
  and carbon dioxide equilibration, 453
  per-weight and per-surface area, 1
Cardiovascular function and bed rest, 223
Cardiovascular reactions and tetra-ethyl-ammonium chloride, 117
Cardiovascular state and fitness, 278
Centrifugal force and tetra-ethyl-ammonium chloride, 117
Cerebral circulation and change of position, 317
Cerebral dysfunction and negative acceleration, 133
Ceylonese people, heat production, 640
CHIODI, H. Blood picture at high altitude, 431
Cholecystokinin and gall bladder, 671
CILLEY, J. H., 388
CLAMANN, H. G., 37
CLARK, L. C., JR. AND ELIZABETH I. BECK. Arginase activity of blood in normal children and pregnant women, 343
Clothing, ventilation, 49
Cold test, sensitivity to, 425
Cold tolerance and vascular responses, 608
COMROE, J. H., JR., 169
Convalescence and work performance, 223
Correlation of indices, fallacy of spurious, 1
CULLUMBINE, H.
  Heat production and energy requirements of tropical people, 640
  Hemoglobin concentration and physical fitness, 274
  Relationship between body build and capacity for exercise, 155
  Relationship between resting pulse rate, blood pressure and physical fitness, 278
CULLUMBINE, H., S. W. BIBILE, T. W. WIKRAMANAYAKE AND R. S. WATSON. Influence of age, sex, physique and muscular development on physical fitness, 488
Cycling, mechanical efficiency of boys, 563

DARK adaptation and age changes, 407
Decompression, alveolar gases in, 37
DEMOOR, JANICE, 481
DENTON, R. W., L. L. GERSHBEIN AND A. C. IVY. Response of human and canine gall bladder to cholecystokinin, 671
Desoxycorticosterone acetate and acclimatization to heat, 399
DEXTER, L., 24
Dibenamine and adrenergic sweating, 512
DIPALMA, J. R., 81
Diurnal variations
  in gustatory acuity, 619
  and olfactory acuity, 553
DOUGLAS, J. C. AND O. G. EDHOLM. Measurement of saturation time and saturation ten-

sion with Millikan oximeter, in subjects with normal pulmonary function, 307
Drugs
and appetite, 217
Dibenamine and sweating, 512
tetra-ethyl-ammonium chloride, 117, 141
Dynamometer, grip, 663
Dyskinesia, biliary and cholecystokinin, 671
Dyspnea and respiratory gas flow, 300

EDHOLM, O. G., 307
Efficiency and food intake, 268
ELBEL, E. R. Relationship between leg strength, leg endurance and other body measurments, 197
Electricity and human tissue, 355
Electrokymograph studies, lung field pulsations, 30
Energy (*see also* Exercise)
expenditure and mechanical efficiency, 563
and mechanics of breathing, 592
requirements and heat production in tropics, 640
Environment
and blood flow, 680
and energy requirements, 640
Enzymes
arginase activity, 343
prothrombin, 192
Equations, regression, 417
Exercise (*see also* Muscular exercise)
oxygen metabolism and smoking, 464
Exercise, physical
and work capacity, 446
and work load, 481
Extracellular fluid volume and insulin therapy, 477
Extremities and blood flow, 61
Eye
dark adaptation, 407
movement and fatigue, 247
threshold levels and age changes, 407

FARMER, C. J., 381, 388
Fat, body measurement, 633
Fat content and residual air volume, 240
Fatigue
eye movement, 247
measurment of group, 148
and physical training, 393
FENN, W. O., 592
FETCHER, E. S., 61
FETCHER, E. S., S. I. RAPAPORT, J. F. HALL AND H. G. SHAUB. Biophysical requirements for the ventilation of clothing, 49
Finger, vasodilated and blood flow, 680
Fitness tests and body build, 155
FITZHENRY, J. R., 464
Folic acid and respiratory and nitrogen metabolism, 327
Food intake
and efficiency, 268
and gall bladder, 671
and gustatory acuity, 619
and olfactory acuity, 553
Food, response to hot and cold, 208
FORSSANDER, C. A., 453
FORSSANDER, C. A. A study of carbon dioxide present in the oral cavity during inspiration, 175
FORSSANDER, C. A. AND C. WHITE.
Determination of CO_2 content of mixed venous blood entering the lungs, 373
Mixing of alveolar air with dead space air during expiration, 110
FOWLER, W. S. Lung function studies. III. Uneven pulmonary ventilation in normal subjects and in patients with pulmonary disease, 283
FRASER, A. M. AND G. W. MANNING. Effect of variation in swing radius and arc on incidence of swing sickness, 580

GALL bladder and cholecystokinin, 671
GAMBLE, J. L., JR., R. S. SHAW, J. P. HENRY AND O. H. GAUER. Cerebral dysfunction during negative acceleration, 133
Gas, alveolar and pulmonary disease, 283
Gas density and respiratory gas flow, 300
Gas exchange and respiration, 175
Gastrectomy and postprandial syndrome, 469
Gastric function, 571
GAUER, O. H., 133
GERKING, E. S., 654
